REPORT OF EVENT

Date	13-12- 2022- 18.12.22	Resource persons	Dr Pooja Latti Dr Deepu George Mathew Dr Priya Thomas
Time	1pm- 2:30 pm	Title	Research Methodology & Bioethics
Venue	Lecture Hall III	No. of Participants	17

REPORT

In continuation of its commitment to promoting research excellence, Annoor Dental College organized a specialized workshop on Research Methodology, Biostatistics, and Bioethics for the MDS batch 2021-22. The workshop spanned from December 13, 2022, to December 18, 2022, and was conducted by the Department of Public Health Dentistry & Oral Pathology.

Objectives of the Workshop:

- To enhance the research skills and methodological understanding of postgraduate students (MDS).
- To provide in-depth training in biostatistics to facilitate advanced statistical analysis in dental research.
- To instill a profound awareness of bioethical considerations relevant to the practice of dentistry and oral health research.

Workshop Structure:

The workshop was structured over six days, encompassing comprehensive sessions on research methodology, biostatistics, and bioethics. The program included lectures, interactive discussions, hands-on exercises, and group activities to engage and enlighten the participants.

Topics Covered:

Day 1-2: Research Methodology-

- Study design and methodology in dental research.
- Systematic review and meta-analysis techniques.

Day 3-5: Biostatistics for Dental Research

- Statistical tests and techniques.

ANNOOR DENTAL COLLEGE & HOSPITAL

Recognized by the Dental Council of India, New Delhi,
Affiliated to Kerala University of Health Sciences
& Recognized by Govt. of India

- Application of statistical software for data sets
- Sampling and sample size calculation

Day 6: Bioethics in Dental Practice

- Ethical challenges in cutting-edge dental research.
- Emerging issues in bioethics relevant to specialized dental fields.
- Good Clinical Practice
- Publication ethics
- Hippocratic oath

Resource Persons:

Esteemed professionals and researchers in the fields of public health dentistry, oral pathology, and advanced statistical analysis were invited as resource persons. Their expertise and real-world insights were invaluable in guiding the MDS students toward a deeper understanding of research methodologies and ethical considerations.

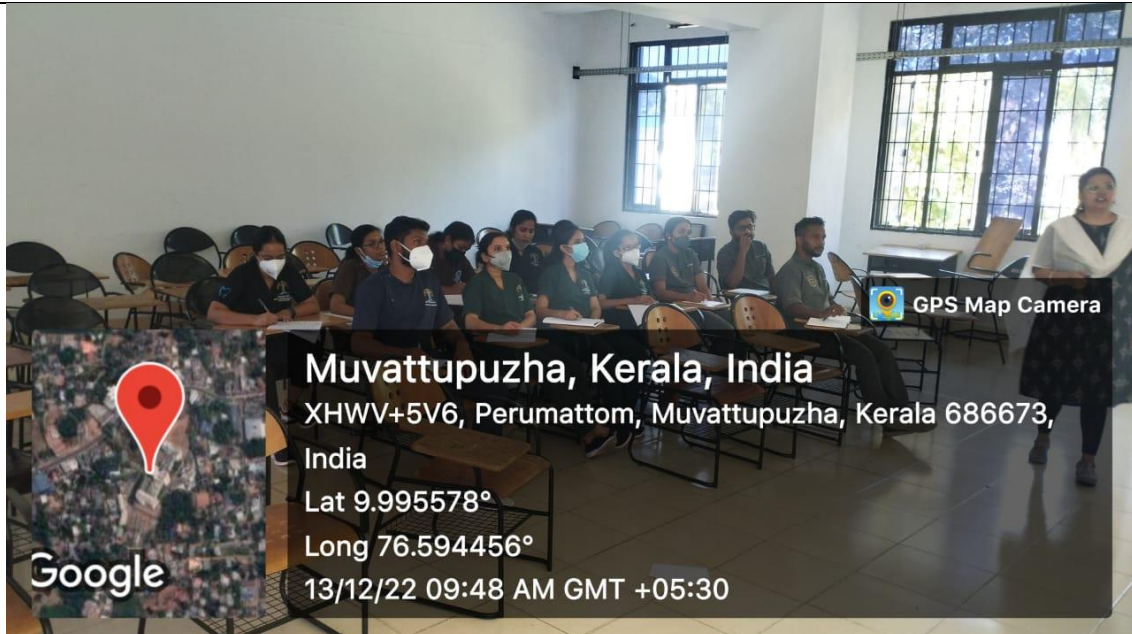

Participant Feedback:

Feedback from the MDS batch 2021-22 participants reflected a high level of satisfaction. They appreciated the advanced nature of the content, the applicability of the skills acquired to their respective specialties, and the opportunity to engage with experts in the field

REPORT OF EVENT

Name of Event: Interdisciplinary CDE

Date	15-12-2022	Resource persons	DR.JOBY PETER
Time	01.00 PM - 02.30PM	Title	CCMS- Understanding its role in treating a Developing Malocclusion
Venue	COLLEGE AUDITORIUM	No. of Participants	77

REPORT

The CDE program titled "Cranio Cervico Mandibular System - Understanding its role in treating a Developing Malocclusion" took place on December 15, 2022, under the organization of the Department of Pediatrics and Preventive Dentistry. Dr. Joby Peter, the Head of the Department, delivered the lecture with the approval of the management, initiating the program in the college auditorium at 1:00 pm with a prayer song.

Dr. Joby Peter's presentation was a remarkable blend of enlightenment and high interactivity. The session featured engaging activities and exuded a palpable energy, garnering complete participation from Heads of various departments, faculties, and interns. The lecture provided fresh insights into the connection between the developing stomatognathic system and malocclusion, offering a new perspective on how the two are intricately linked.

Moderated by Dr. Deepu George Mathew and Dr. Jiss Mary George, the program reached its conclusion with a concluding note delivered by the Principal, Dr. Giju George Baby. In recognition of Dr. Joby Peter's contribution, the Principal awarded a certificate to the speaker. The event concluded with a vote of thanks from Dr. Swati R.

The program's outcome was reflected in the feedback received from participants, with the overall response indicating that the program was not only excellent but also highly informative. The positive feedback underscored the success of the initiative in providing valuable insights into the treatment of developing malocclusion through an understanding of the Cranio Cervico Mandibular System. The archiving of feedback forms alongside the comprehensive report ensures that the acquired input remains accessible for future reference and continuous improvement in organizing similar educational programs. This systematic approach underscores the department's commitment to ongoing professional development and the enhancement of dental care practices.

REPORT OF EVENT

Name of Event: PACE

Report of event			
Date	27-12-2022	Resource persons	DR.JOHN JOSEPH METHIPPARA
Time	01.00 PM - 02.30PM	Title	D.E.A.D - DRUGS END ALL DREAMS
Venue	COLLEGE AUDITORIUM	No. of Participants	62

REPORT

The 37th session of the PACE programme, titled "D.E.A.D - DRUGS END ALL DREAMS," took place on December 27, 2022. The event was organized by the Department of Pediatrics and Preventive Dentistry and featured a talk by Dr. John Joseph, a Reader in the Department of Pediatrics and Preventive Dentistry.

The event commenced at 1 pm in the college auditorium with a prayer song performed by postgraduates. Dr. Swati R, Senior Lecturer in the Department of Pediatrics and Preventive Dentistry, extended a warm welcome to all the participants. The role of moderators was undertaken by Dr. Josey Mathew, Professor and HOD of the Department of Conservative Dentistry and Endodontics, and Dr. Paul Steaphen, Reader in the Department of Oral and Maxillofacial Surgery (OMFS).

Dr. John Joseph's lecture, delivered in a very enlightening and interactive manner, covered the science and mechanism of drug abuse, its adverse effects, and methods of prevention. The presentation was designed to be simple and lucid, ensuring that the information was accessible to the audience. The emphasis on preventive measures in the lecture likely included practical strategies that individuals, families, and communities could implement. This might have involved education and awareness programs, early intervention strategies, and community support initiatives.

A total of 62 delegates participated in the PACE programme. In addition to the lecture, the

ANNOOR DENTAL COLLEGE & HOSPITAL

Recognized by the Dental Council of India, New Delhi,
Affiliated to Kerala University of Health Sciences
& Recognized by Govt. of India

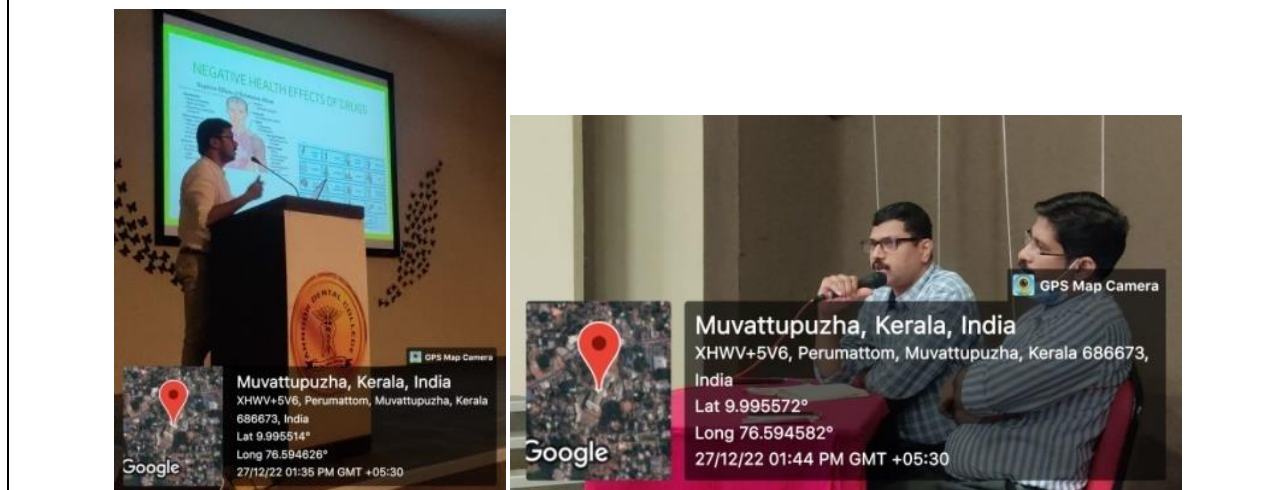

program also recognized and honored award winners in both the Postgraduate and Undergraduate categories for various competitions held at regional and national levels.

The closing remarks for the program were delivered by the Vice Principal, Dr. Liza George, who also presented a certificate to Dr. John Joseph for his contribution. Dr. Reshma Joseph, Senior Lecturer in the Department of Pediatrics and Preventive Dentistry, delivered the vote of thanks.

The program concluded with the distribution of feedback forms to participants, and the overall feedback indicated that the program was rated as excellent and informative.

The feedback forms, along with a comprehensive report, were archived, ensuring a record of the event and valuable insights for future programs. The successful execution of the PACE program highlights the commitment of the Department of Pediatrics and Preventive Dentistry to address important issues such as drug abuse in an informative and engaging manner.

REPORT OF EVENT

Hands on workshop on chairside diagnostic techniques in the early oral cancer detection

Logo		College name	
		Annoor Dental College & Hospital, Muvattupuzha	
Report of event			
Date	19.03.23 20.03.23	Resource persons	Dr. Giju George Baby Dr Moni Kuriakose Dr Praveen Birur N Dr Sumsum Sunny Dr Deepu George Mathew Dr Priya Thomas
Time	9:00 am – 5:00 pm	Title	Hands on workshop on chairside diagnostic techniques in the early oral cancer detection
Venue	College Auditorium	No. of Participants	200
REPORT of EVENT			
<p>A workshop on chairside diagnostic techniques for early oral cancer detection was conducted under the aegis of DHR- ICMR. The workshop was organized by the Department of Oral Pathology & Microbiology, Annoor Dental College & Hospital, Muvattupuzha. The aim of the workshop was to educate dental surgeons, postgraduates, and interns across the state about early oral cancer detection and diagnosis.</p> <p>The workshop featured lectures by luminaries from the field of oral cancer research. Dr. Giju George Baby addressed the attendees on identifying precancers and early cancers in dental clinics. Dr. Moni Kuriakose spoke on the pitfalls in the diagnosis and management of oral precancers. Dr. Praveen Birur N provided insights on the use of Autofluorescence and AI in image interpretation for early cancer detection. Dr. Sumsum Sunny shared his knowledge on the role of oral cytology in identifying precancers and early cancers.</p> <p>Dr. Deepu George discussed whether biopsies are needed to identify early cancers in dental clinics, while Dr. Priya Thomas provided a live demonstration on identifying the representative site for incision biopsy using Toluidine blue application and interpretation</p> <p>Live demonstrations on toluidine blue staining and autofluorescence with AI image interpretation was provided to all delegates. The attendees had the opportunity to gain hands-on experience in performing punch biopsies and oral brush cytology.</p> <p>The workshop received an overwhelming response from the dental community across the state. The attendees included dental surgeons, postgraduates, final year students and interns. The workshop provided attendees with valuable insights into the diagnosis and management of oral precancers and early cancers. The lectures by the experts shed light on the latest technological advancements and diagnostic tools for early cancer detection. Overall, the workshop was a great success, and the attendees left with a better understanding of oral cancer diagnosis and management.</p>

REPORT OF EVENT

Name of Event: Program for Academic Contribution & Excellence (PACE)

Date	21/03/2023	Resource persons	Dr. VINEET ALEX DANIEL
Time	1:00 PM	Title	“SILENT HIGH- JACK”
Venue	AUDITORIUM	No. of Participants	98

REPORT

The 39th session of the Programme for Academic Contribution and Excellence (PACE), conducted by the Department of Oral Medicine & Radiology on March 21, 2023, featured an impactful talk by Dr. Vineet Alex Daniel, Professor, and Head of the Department. The insightful session, titled "SILENT 'HIGH'JACK," addressed the pressing issue of drug abuse and its detrimental effects on individuals.

Moderated by Dr. Sinju Paul, Reader in the Department of Conservative & Endodontics, and Mr. Arun K Thomas, Lecturer in the Department of Pharmacology, the program drew the active participation of 98 attendees. Dr. Vineet Alex Daniel's lecture provided comprehensive insights into the consequences and ill effects of drug abuse, shedding light on the silent but profound impact it can have on individuals and society.

The session not only increased awareness but also served as an enlightening platform for participants, offering valuable information and perspectives on the challenges associated with drug abuse. The Department of Oral Medicine & Radiology, through this session, demonstrated its commitment to addressing crucial health issues and contributing to the academic and social well-being of the participants. The success of the program lies in its ability to effectively disseminate knowledge and foster a deeper understanding of the adverse effects of drug abuse within the dental community.

REPORT OF EVENT

Name of Event: INTERDISCIPLINARY CDE PROGRAMME

Date	20/04/2023	Resource persons	Dr Deepu George Mathew
Time	1:00 pm	Title	What we do now echoes in eternity
Venue	Auditorium	No. of Participants	85

REPORT

Dr. Deepu George Mathew's insightful presentation on epigenetics during the CDE program, "WHAT WE DO NOW ECHOES IN ETERNITY," likely delved into the dynamic interplay between genetic and environmental factors that influence gene expression. Attendees were likely provided with a profound understanding of how epigenetic modifications contribute to various oral pathologies, offering a futuristic perspective on the potential implications for diagnostics and treatment strategies in dentistry.

The active participation of both faculty members and students throughout the session suggests that the topic resonated well within the dental community, sparking intellectual curiosity and engagement. The multidisciplinary nature of the audience, including professionals and learners from various fields, could have enriched the discussions and perspectives shared during the CDE.

Dr. Josey Mathew's concluding remarks, as the Head of the Department of Conservative Dentistry and Endodontics, may have emphasized the practical applications of the insights gained from Dr. Deepu's presentation. Connecting the theoretical knowledge on epigenetics to its relevance in conservative dentistry and endodontics could have highlighted the interdisciplinary significance of such discussions.

The awarding of certificates to the speaker and moderators by Prof. Dr. Giju George Baby, the Principal, not only acknowledged their valuable contributions but also reinforced the commitment to recognizing and promoting excellence in dental education. Such recognitions likely serve as motivators for continued contributions to the field.

Dr. Lekshmi's vote of thanks underscored the collaborative effort involved in organizing the CDE, expressing gratitude to all those who contributed to the success of the event. The decision to go paperless for feedback aligns with contemporary environmental consciousness, reflecting

ANNOOR DENTAL COLLEGE & HOSPITAL

a forward-thinking approach to event management.

Beyond the intellectual stimulation, the CDE program contributed to the celebration of National Oral Pathology Day. The prize distribution for competitions associated with the day recognized and rewarded achievements within the field, fostering a culture of excellence and healthy competition among participants.

The CDE program not only provided profound insights into the field of epigenetics but also facilitated meaningful discussions and connections within the dental community. The recognition of accomplishments through certificates and prizes, along with the eco-friendly initiative of a paperless feedback system, showcased a holistic and forward-looking approach to dental education and professional development

REPORT OF EVENT

Date	25-04-2023	Resource persons	DR.KRISHNA KUMAR R
Time	1.00PM – 2.00PM	Title	DENTOPHOBIA
Venue	COLLEGE AUDITORIUM	No. of Participants	72

REPORT

On April 25, 2023, the PACE program titled "DENTOPHOBIA" took place, organized by the Department of Pediatrics and Preventive Dentistry. Dr. Krishna Kumar R, a Professor in the same department, delivered an enlightening and highly interactive talk on pediatric patients' fear of Local Anesthesia, with a focus on the latest advancements like WAND, aimed at overcoming such fears. The management's approval and support underscored the significance of the program. Commencing in the College Auditorium at 1:00 pm with a prayer song by Dr. Anjana R, the event was anchored by Dr. Swati and Dr. Reshma, Senior Lecturers from the Department of Pediatrics and Preventive Dentistry. Dr. John Joseph Methippara, a Reader in the department, extended a warm welcome to the gathering. Dr. Krishna Kumar's lecture shed light on overcoming pediatric patients' fear of Local Anesthesia, incorporating the latest innovations like WAND. A total of 74 delegates actively participated in the Continuing Dental Education (CDE) program, emphasizing its relevance and impact.

The program's moderation by Dr. Joby Peter and Dr. Pooja Latti ensured a smooth flow. The Principal, Dr. Giju George Baby, delivered a concluding note, acknowledging the speaker's contribution and awarding a certificate. Dr. Riswana expressed gratitude in the vote of thanks.

Feedback forms distributed to participants indicated an excellent and informative rating, affirming the program's success. The archived feedback forms stand as a testament to the positive impact of the DENTOPHOBIA program, showcasing the Department's dedication to advancing dental education and addressing crucial aspects of pediatric dentistry.

REPORT OF EVENT

Name of Event: Programme for Academic contribution and excellence – 41st session

Date	01/06/2023	Resource persons	Dr Priya Thomas
Time	1:00 PM	Title	DIY BIO – The future science. com
Venue	Lecture hall IV	No. of Participants	76

REPORT

The 41st session of PACE, orchestrated by the Department of Oral and Maxillofacial Pathology and Microbiology, unfolded with a captivating talk on "DIY-BIO – The Future Science.com" by Professor Dr. Priya Thomas. The topic delved into the realm of DIY Biology (DIY Bio), an innovative approach that empowers individuals to engage in biological experimentation outside traditional laboratory settings. The informative session explored the evolving landscape of DIY Bio, shedding light on its potential implications for the future of scientific exploration.

DIY Biology encourages enthusiasts, hobbyists, and citizen scientists to participate in biological research, fostering a more inclusive and accessible scientific community. The presentation likely sparked curiosity among the participants, offering insights into the democratization of biological experimentation and its transformative impact on the scientific landscape. The session, thus, not only provided valuable knowledge but also ignited a curiosity to explore the exciting possibilities within the evolving field of DIY Biology.

Dr. Nirupa Thomas, Reader in the Department of Oral and Maxillofacial Pathology and Oral Microbiology, extended a warm welcome to the gathering. The session, moderated by Dr. Jose Paul, Professor and HOD of the Department of Periodontics, and Dr. Pooja Latti, Professor and HOD of the Department of Public Health Dentistry, provided a well-structured platform for the informative discourse. Following the enlightening talk, the speaker and moderators were duly acknowledged and awarded.

Concluding remarks were delivered by Dr. Deepu George Mathew, Professor and HOD of the Department of Oral and Maxillofacial Pathology and Oral Microbiology. Dr. Lekshmi Veugopal, Senior Lecturer in the same department, proposed the vote of thanks.

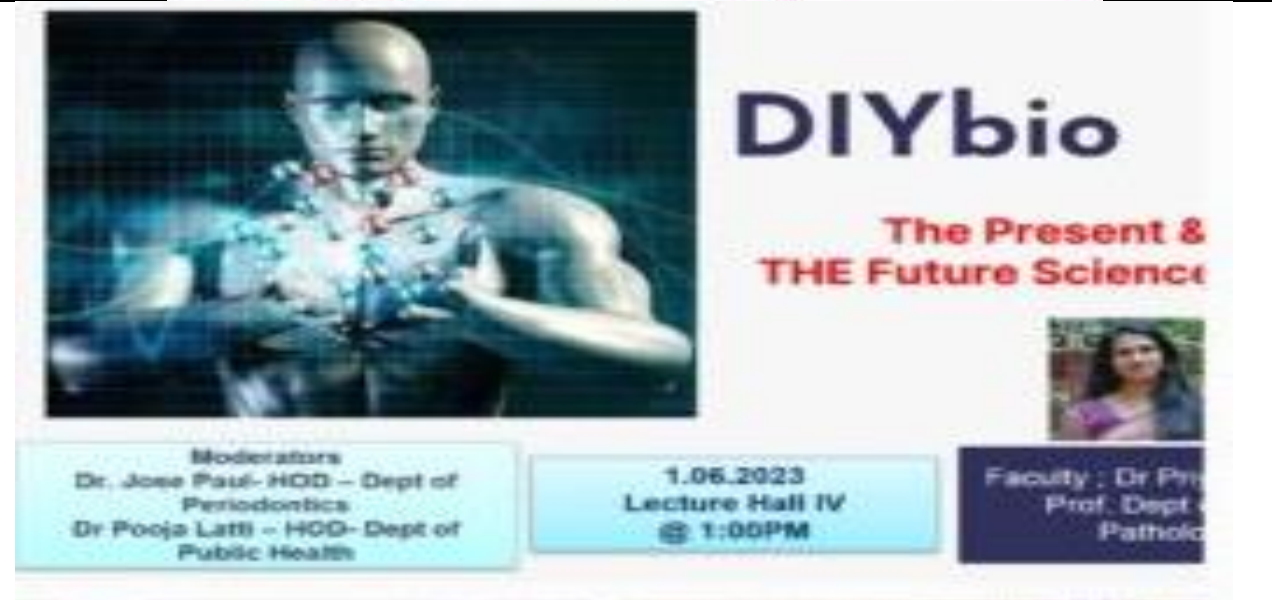

Feedback forms distributed to staff and students during the program reflected a positive learning experience, with 75 participants in attendance. The session concluded with a gesture of hospitality, as refreshments were served to all staff and students at the lecture hall, fostering

REPORT OF EVENT

Date	20/6/2023	Resource persons	Dr. Annie Susan Thomas
Time	1:00 pm – 2:30 pm	Title	Unlocking the TMD Puzzle- A journey from Pain to success
Venue	TM Seethy Hall	No. of Participants	89

REPORT

The interdisciplinary Continuing Dental Education event, "Unlocking the TMD Puzzle," organized by the Department of Prosthodontics and led by resource faculty Dr. Annie Susan Thomas, HOD, Department of Prosthodontics was a resounding success. The CDE started with a prayer song, followed by a welcome speech by Dr Sharath. Dr Jiss Mary & Dr Eldhose KG were the moderators for the Session. The session mainly focused on different aspects of TMD like its cause, risk factors and potential impact on oral health. The participants opined that the sessions were useful for their academic progress and understanding. It provided dental professionals with a deeper understanding of TMD, encouraged collaboration across disciplines, and showcased the latest advancements in TMD diagnosis and treatment.

The CDE event focused on providing dental professionals with a comprehensive understanding of TMD, its diagnosis, and treatment modalities. The knowledge gained from this event will undoubtedly lead to improved patient care and better outcomes for those suffering from Temporomandibular Disorders. The commitment of the dental community to continually enhance their skills and knowledge reflects the ongoing dedication to the welfare of their patients.

REPORT OF EVENT

Date	28 th June 2023	Resource persons	Dr Senny Thomas Parackal
Time	1pm	Title	Unveiling a true hero
Venue	TM Seethy Hall	No. of Participants	69

REPORT

The 42nd PACE session, hosted by the Department of Periodontics at Annoor Dental College and Hospital, unfolded with an enlightening presentation titled "UNVEILING A TRUE HERO" by Prof. Dr. Senny Thomas Paracakal. The event, held in the auditorium at 1 pm, was skillfully managed by Dr. Sruthi K Nair, Senior Lecturer in the Department of Periodontics, serving as the Master of Ceremonies.

The program commenced with a soulful prayer song performed by postgraduate students, setting a serene atmosphere for the session. Dr. Reshma TS, Senior Lecturer in the Department of Periodontics, delivered a warm welcome address, initiating the proceedings.

Prof. Dr. Senny Thomas Paracakal, the esteemed speaker, delved into the intricacies of Platelet-Rich Fibrin (PRF), exploring its various types and clinical applications in dentistry. The insightful presentation attracted the active participation of 69 attendees keen on expanding their knowledge.

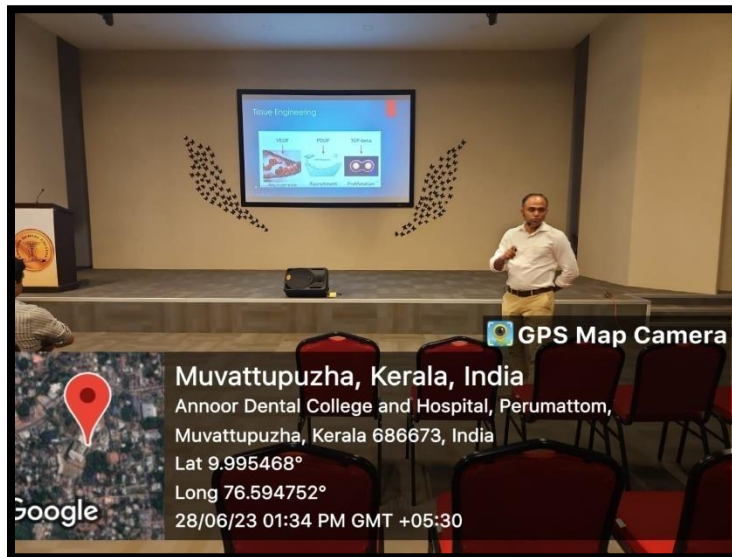

Dr. Johnson Prakash D'lima, Professor in the Department of Periodontics, and Dr. Deepu George, Professor and HOD of the Department of Oral Pathology, skillfully moderated the session, ensuring its smooth progression. The event culminated in an engaging open discussion, providing a platform for participants to interact with the speaker and moderators.

Dr. Freeda Ampotti, Senior Lecturer in the Department of Periodontics, extended gratitude in the form of a vote of thanks, acknowledging the speaker, moderators, and participants for their valuable contributions. The 42nd PACE session exemplified the commitment of the Department of Periodontics to disseminating knowledge and fostering a culture of continuous learning within the dental community.

Bioethicon'23

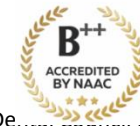

Date	7/8/2023	Resource persons	Dr Chandrasekar Janakiram
Time	7:00 am – 9:00 pm	Title	Bioethicon '23 Training Workshop on National Ethical Guidelines for Biomedical and Health Research Involving Human Participants
Venue	Zoom Platform	No. of Participants	56

REPORT

The "Bioethicon 2023: Training Workshop on National Ethical Guidelines for Biomedical and Health Research Involving Human Participants" held on 7.8.2023 at 7:00pm through zoom platform. The workshop was organized with the aim of providing comprehensive training to all faculty members, postgraduates, and members of the institutional ethical committee regarding the ethical principles and guidelines governing research involving human participants.

The workshop comprised a series of lectures, interactive discussions, case studies, and practical exercises. The workshop was designed to benefit the Faculty members engaged in research involving human participant, Postgraduate students conducting research projects and Members of the institutional ethical committee responsible for reviewing research protocols and ensuring compliance with ethical guidelines. The Bioethicon 2023 workshop had several positive outcomes and impacts:

- **Enhanced Knowledge:** Participants gained a deeper understanding of ethical principles and guidelines, which will contribute to the ethical conduct of research at our institution.
- **Improved Skills:** Practical training sessions equipped participants with the skills necessary to implement ethical practices in their research projects.

ANNOOR DENTAL COLLEGE & HOSPITAL

- Strengthened Ethical Oversight: The training provided to members of the institutional ethical committee will lead to more effective and informed ethical reviews of research protocols.
- Promoted Ethical Culture: The workshop fostered a culture of ethical research and responsible conduct, emphasizing the importance of ethical considerations in all stages of research.

The Bioethicon 2023 workshop was a resounding success, achieving its objectives of enhancing ethical awareness and knowledge among faculty members, postgraduates, and ethical committee members.

Date	17/10/2023	Resource persons	Dr. Binoy Kurian
Time	1.00 PM	Title	Get your license - A Road Map to Patency
Venue	College auditorium	No. of Participants	106

REPORT

The Department of Orthodontics & Dentofacial Orthopedics at Annoor Dental College organized a value-added Continuing Dental Education (CDE) Program titled "GET YOUR LICENSE: A ROAD MAP TO PATENCY" on October 17th, 2023, starting at 1:00 PM. The event witnessed an impressive turnout, with a total of 106 participants in attendance, including undergraduates, postgraduates, interns, and teaching faculty.

The program kicked off with a harmonious prayer song performed by Dr. Ammu Sasidharan, a second-year postgraduate student. Following this serene start, Dr. Gopikrishnan S, presumably a faculty member, delivered a warm and welcoming speech to set the tone for the event.

The program's highlight was the introduction of the session's speaker, Dr. Gejo Johns, who played a pivotal role in providing invaluable insights into the development, ownership, and the process of bringing a new product to the public market. Dr. Johns elucidated the complexities involved in obtaining a patent for a novel product, focusing particularly on his experience with the "Automatic Alginate Dispenser." He elaborated on the various steps and intricacies involved in the patenting process.

The session proved to be highly engaging as it included a live demonstration of the working mechanism of the Automatic Alginate Dispenser. This hands-on demonstration allowed active participation from the staff, students, and postgraduates across various departments of the college. The interactive nature of the program enabled attendees to gain practical insights into the subject matter.

The event concluded on a positive note with a vote of thanks delivered by Dr. Pradeep Philip George, demonstrating gratitude to all participants, organizers, and especially to the speaker, Dr. Gejo Johns. Dr. George's closing remarks reflected the success and significance of the event.

Participant feedback from the CDE Program was exceptionally positive, with attendees expressing their appreciation for the informative content and the interactive learning experience provided. This event proved to be an enriching platform for sharing knowledge, fostering intellectual growth, and encouraging innovation within the field of orthodontics and dentofacial orthopedics. It also underscored the importance of intellectual property and the process of obtaining patents for innovative dental products, leaving attendees better equipped for their future endeavors in the dental profession.

REPORT OF EVENT

Date	2-11- 2023 to 11-11-23	Resource persons	Dr Pooja Latti Dr Deepu George Mathew Dr Priya Thomas
Time	1pm- 2:30 pm	Title	Certificate Course in Research Methodology, Biostatistics & Bioethics
Venue	TM Seethy Hall	No. of Participants	16

REPORT

Annoor Dental College, committed to fostering academic excellence and research proficiency, conducted a comprehensive workshop on Research Methodology, Biostatistics, and Bioethics. The workshop took place from November 2, 2023, to November 11, 2023, organized by the Department of Public Health Dentistry & Oral Pathology. The primary audience comprised 1st-year postgraduate students eager to enhance their research skills and ethical understanding in the field.

Objectives of the Workshop:

To provide a foundational understanding of research methodology in the context of dental and oral health.

To impart essential knowledge and skills in biostatistics for effective data analysis.

To cultivate an awareness of bioethical considerations in dental research and clinical practice.

Workshop Structure:

The workshop was structured over 8 days, with each day dedicated to specific aspects of research methodology, biostatistics, and bioethics. The sessions were conducted through a combination of lectures, practical exercises, and interactive discussions. Hands on was conducted on use of Zotero software for referencing.

Resource Persons:

Eminent professors and experts in the fields of public health dentistry, oral pathology, and research methodology were invited as resource persons. Their wealth of experience and insights enriched the learning experience for the participants.

Participant Feedback:

Feedback from the participants was overwhelmingly positive. They appreciated the practical approach to learning, the opportunity to interact with experts, and the relevance of the topics

covered to their academic and research pursuits.

Program Outcome:

The Research Methodology, Biostatistics, and Bioethics Workshop at Annoor Dental College aimed to achieve several overarching program outcomes, designed to equip 1st-year postgraduate students with essential skills and knowledge for conducting meaningful and ethical research in the field of dental and oral health. These program outcomes include:

Research Proficiency: Enable students to comprehend and apply the fundamental principles of research methodology, from formulating research questions to designing and implementing studies in the context of dental and oral health.

Statistical Competence: Provide a strong foundation in biostatistics, empowering students with the ability to analyze data accurately, interpret results, and draw meaningful conclusions to inform evidence-based dental practices.

Ethical Awareness: Cultivate a heightened awareness of ethical considerations in dental research and clinical practice, emphasizing principles such as respect for autonomy, beneficence, non-maleficence, and justice.

Critical Thinking: Foster critical thinking skills to evaluate and synthesize scientific literature, enabling students to contribute to the advancement of knowledge in their respective areas of specialization.

Collaborative Research: Promote a collaborative approach to research, encouraging students to work effectively in interdisciplinary teams and engage in peer-reviewed publications and presentations.

Specific Outcomes:

In addition to the broader program outcomes, the workshop focused on specific outcomes tailored to each segment of the training. These specific outcomes aimed to provide a more detailed and targeted understanding of the subject matter.

Research Methodology:

- **Formulation Skills:** Develop the ability to formulate clear and concise research questions and hypotheses.
- **Study Design:** Acquire proficiency in selecting appropriate study designs for dental and oral health research.

ANNOOR DENTAL COLLEGE & HOSPITAL

Recognized by the Dental Council of India, New Delhi,
Affiliated to Kerala University of Health Sciences

- Literature Review: Learn effective strategies for conducting literature reviews and identifying research gaps.

Biostatistics:

- Statistical Analysis: Master the application of basic statistical tests relevant to dental research.
- Software Competence: Gain hands-on experience with statistical software for data analysis.
- Interpretation: Develop the skills to interpret statistical results accurately and effectively communicate findings.

Bioethics:

- Informed Consent: Understand the significance of informed consent and its application in dental research.
- Ethical Review: Gain practical experience in conducting ethical reviews of research proposals.
- Publication ethics: Ethical considerations in the publication of research findings.
- Good clinical practice: Doctor patient relationship
- Case Analysis: Analyze and discuss real-world ethical challenges in dental practice through case studies.

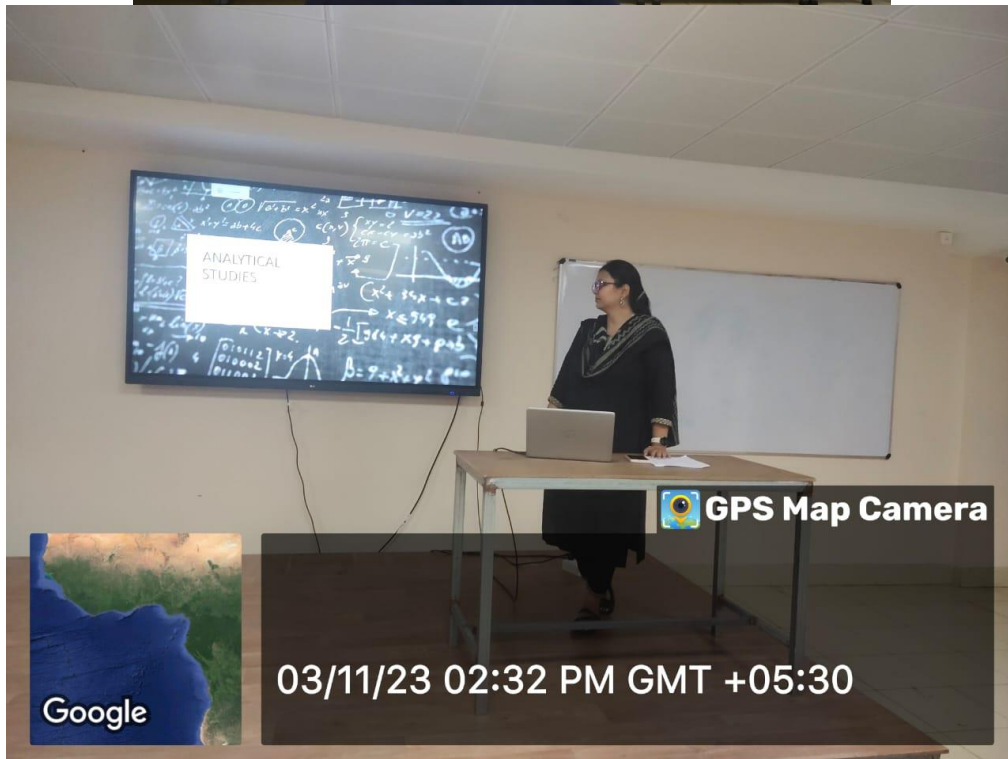

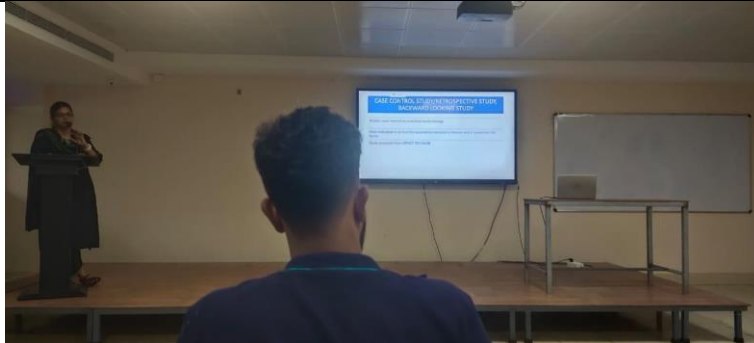

Practical Applications and Group Projects:

- Application of Concepts: Apply acquired knowledge through practical exercises and group projects.
- Problem-Solving: Develop problem-solving skills through collaborative group projects.
