Alumni Association Activities at Annoor Dental College - Annual Report

The Alumni Association, comprising esteemed graduates from various departments and the undergraduate students and faculty employed in Annoor Dental College, has been actively engaged in initiatives aimed at academic enrichment, resource contribution, and infrastructure development for the betterment of our alma mater.

1. Repenso - Academic Program by the Department of Periodontics: One of the flagship initiatives led by our alumni from the Department of Periodontics is "Repensō." This academic program, conducted monthly, serves as a platform for alumni to share their expertise, experiences, and knowledge with current students. The sessions cover a range of topics, including recent advancements in periodontal care, case studies, and interactive discussions. This program has proven instrumental in fostering a culture of continuous learning and mentorship within the department.

2. Library Enrichment: The Alumni Association has continued its commitment to enhancing the academic resources available to students by donating new books and journals to the college library. This contribution is a testament to the dedication of our alumni to support the academic pursuits of current students and to ensure that the library remains a hub for research and learning.

3. Infrastructure Development Contributions: The alumni have taken a keen interest in the overall development of the college infrastructure. Notably, contributions have been made towards installing water coolers in strategic locations within the college premises, providing a convenient and refreshing amenity for both students and faculty. Additionally, donations for decorative plants have added aesthetic value to the campus, creating a more vibrant and pleasant environment for all.

Future Endeavors: Looking ahead, the Alumni Association is exploring avenues for further collaboration with the college. Plans are underway to extend support for additional infrastructure projects and to establish scholarship programs for deserving students. The association aims to continue fostering a strong sense of community among alumni and providing valuable resources for the ongoing development of Annoor Dental College. Also plans to bring more alumni to academic platforms were decided in the meetings
